

ADVANCED MANUFACTURING & INDUSTRIALIZATION

Transform your manufacturing operations leveraging from our deep expertise in automotive and battery production.

KEY FACTS

- 13+ years of experience in global project delivery
- 20+ projects completed in automotive and industrial sectors
- €500M total budgets managed
- Teams up to 300 members managed successfully

Awarded by Mercedes-Benz in 2023 for Exceptional Project Management on AMG GT 4-Door Coupe production relocation

Our professionals hold IPMA Level C certification, demonstrating proven competence in managing complex projects

OUR COMPANY

KLECO Solutions helps companies transform ideas into scalable and high-quality production. We focus on industrialization strategies, process optimization, and smart factory integration to ensure smooth transition to any size of production. Our approach combines engineering expertise, digital technologies, and sustainability principles to deliver predictable outcomes.

KEY CAPABILITIES

With strong experience in advanced manufacturing and industrialization, we make complex processes transparent, efficient, and cost-effective. From planning to implementation, we ensure every step meets quality standards, compliance requirements, and business objectives. Our goal is to help our customers to achieve faster time-to-market and long-term competitiveness.

FEASIBILITY STUDIES

Comprehensive analysis of technical and economic viability for new production programs.

SIMULTANEOUS ENGINEERING

Coordinate product design and manufacturing process development for optimal outcomes.

PROCESS OPTIMIZATION

Eliminate bottlenecks, improve process efficiency, and maximize throughput in existing operations.

WHY KLECO SOLUTIONS?

We combine industrial expertise, advanced manufacturing know-how, and a pilot-first approach. You invest only when value is proven. Our team has delivered complex industrialization projects across borders and cultures, always focusing on clear communication and strong execution.

BENEFITS

- Faster industrialization with reduced risk
- Optimized production processes and layouts
- Improved quality and reduced scrap rates
- Enhanced production capacity and flexibility

GET STARTED

Book a meeting to discuss your manufacturing goals, review current processes or plan a pilot industrialization project. We will assess your production strategy and priorities, then work together to develop a plan that helps you reach your goals.
